

PROFILE

Originally from Tahiti, inspired by the ocean and competitive sailing in an environment deeply connected to fluids. Resilient in the face of challenges and adaptable to sudden changes, guided by strong determination. Motivated by the ambition to work in the fields of fluid mechanics, aeronautics, and aerospace, with a particular interest in meteorology and astronomy.

EDUCATION

Swiss Federal Institute of Technology Zürich (ETH Zürich) *2025 – 2027*
MSc in Mechanical Engineering

- Relevant Coursework: Hydrodynamics and Cavitations, Turbulent flows, Aerospace propulsion, Aircraft and Cars Aerodynamics, Orbital Dynamics, Computational multiphase thermal fluid dynamics.

École Polytechnique Fédérale de Lausanne (EPFL) *2022 – 2025*
BSc in Mechanical Engineering | GPA: 4.52/6

- Relevant Coursework: Compressible flows, Thermodynamics, Electromagnetism, Mechanics of structures, Mechanical behavior of materials, Industrial production processes, Introduction to AI.

École du Flon *2020 – 2022*
EPFL Admission exam | GPA: 4.32/6

- Very selective exam with approximately 15% admission each year. Coursework: Mathematics, Physics, Chemistry, Computer science and Numerical analysis.

Lycée Paul Gauguin, Tahiti *2017 – 2020*
French baccalauréat S

- Relevant Coursework: Mathematics, Physics and Mathematics specialty.

SKILLS

- **Programming languages:** Python, Matlab, Labview, C, Arduino
- **Modeling and Simulation:** CATIA, Fusion 360, Shapr3D, Abaqus (FEM)
- **Tools:** MS Office Suite, LaTeX, Git
- **Languages:** French (native), English (fluent), Spanish (intermediate), German (beginner)

WORK EXPERIENCE

Catering service | Martinez Hotel, Cannes *Summer 2022*

- Worked in catering during the summer season, contributing to high-end event service operations.

Private mathematics and physics teacher | Lausanne *2023 – 2024*

- Tutored high-school students in mathematics, developing communication and teaching skills.

Mentor | EPFL, Lausanne *Autumn 2024*

- Provided guidance and academic support to first-year students at EPFL.

Sailing instructor | Campus Nautical Center *2024–*

- Trained and supervised sailing students, ensuring safety and improving technical skills.

OTHER EXPERIENCE

- **Bachelor thesis | Laboratory of Fluid Mechanics Instabilities (LFMI):** Analysis of the fall of a porous object in a viscous fluid using a tracking algorithm and data visualization tools.
- **Coaching Committee | EPFL:** Responsible for organizing and managing events aimed at supporting student development and collaboration.
- **Competitive sailing | Participation in 3 world championships and 7 international championships:** Best position at the world championship : 4th
- **Conservatory training | Violin and music theory:** 10 years of practice and the integration of an orchestra.
